

We work hard
and look for enjoyment in everything that we do

Summer Term Edition

Dear Parents and Carers,

Welcome back to the new term. As usual, it's an action packed term full of exciting new topics, trips and events!

I am writing to let you know about a long-standing member of staff who is leaving Canonbury this month: Tracy Tucker in our Nursery who has been at Canonbury for 13 years.

Tracy has been the first point of contact for many Canonbury families over the years, providing the warm welcome that has led to a positive start to the school experience of so many children.

I'd like to take this opportunity to thank Tracy for her huge contribution to the school and I know that parents across the school will want to show their appreciation and wish her well in all her future endeavours.

Patrick Milder

YEAR 2

As our entry point to our topic Amazing Africa, Year 2 made some African masks using traditional African patterns!

NURSERY

In Nursery, we have been really interested in learning about Space. We have looked at non-fiction books about Space, asking lots of interesting questions about the pictures and listening

RECEPTION

The new garden in Reception playground provides ample opportunity for child initiated discovery. Sven has created a habitat for a 'Bog Baby' following clues given in our class book.

YEAR 1

As part of their new topic called 'Kings and Queens, in 1 Artemis we baked scones and ate them with jam at a royal banquet. All of the guests had beautiful hand-crafted crowns!

YEAR 4—FASHION TOPIC

As part of our Topic entry point we have been exploring clothes of different fashions and time periods. The class had a great time stepping into different clothes

MUSIC CORNER

The Y6 Severn group of cornet players in Alan Pring's 'Forward March'.

YEAR 6

This term year 6 are learning about volcanoes and earthquakes. We have started by looking at the layers of the earth by making a Plasticine model. The inner core, outer core, mantle, crust, sea and land were all different colours. We cut our Earth in half to make a cross-section.

YEAR 3

Year 3 Hestia are starting a new topic on The Rainforest. As their entry point they were asked to produce a poster or 3D model of the Rainforest. The children have produced some amazing results that are now up on display in the classroom.

YEAR 5

Last week year 5 began to explore their new topic the Vikings and Anglo-Saxons through completing several fun activities. For example making a paper boat, dressing up and playing games.

TERM DATES

Term Dates
