

A message from Patrick 03.04.2020

A warm hello to everyone at Canonbury.

I am so proud of the Home Learning that is happening all over Islington and beyond - our Canonbury community has joined together to keep education buzzing with life. Well done to all Canonbury students for your efforts and we must thank your parents and carers for helping Canonbury School to carry on –

We are not closed, we are just spread out into hundreds of homes!

More details and Spot the Daffo-Difference here:

<https://canonburyprimaryschool.co.uk/patricks-spring-assembly-video-and-competition/>

We thought it would be exciting to connect all this learning together in a newsletter so you can see Canonbury life altogether in one place, as it would be if you were all here. We had a great response to our request for photos, so don't be disappointed if we could not fit you in this time-we are aiming for everyone to be represented over the coming weeks, so look out!

As we gather photos from home, I have also included a celebration of our children of key workers (see below), who, like you, are busy with the daily learning, while their parents carry on with their key work in hospitals, police, social care, homeless support, foodbanks, food supply and food shops.

It is great to see everyone busy with Art and PE – completing Rhiannon's projects and Karl's workouts. If you have not seen them they are in the Home Learning tab for your yeargroups.

We would love to see some music photos too – links to Neville's brass website and Rachel's Recorder Practice are on the Website and also below:

I wish everyone a happy holiday and see you soon! – enjoy these Canonbury links:

Watch my
Spring Assembly
and enjoy these
Canonbury
Links!

Year 1 update

Well done to Year 1 for your fantastic efforts over the last two weeks! Lots of you are working very hard at home and enjoying the tasks you have been set.

Look who is showing us their marvellous maths activities. Well done for making the balance scales. Who's that holding up a tense story using lots of conjunctions and impressive vocabulary? and a a book review about Monster Diner - you feel deservedly proud of enjoying reading it on your own for the first time. He liked it "because there was lots of green slime and bugs!" See who has made a bright, cheerful collage and and look who's getting us into the Easter spirit with her beautifully crafted basket.

Well done everyone! Enjoy your Easter break. We will be in contact soon!

Stop Press!

More Canonbury creativity
and concentration from Year
1.

Amazing work, team!

Year 2 update

Well done year 2 for your fantastic efforts over the last 2 weeks! Lots of you are working very hard at home and enjoying the tasks you have been set.

As these photos show, you have been discovering the pleasure of reading- look who has read 11 books! Then we have a book review with lots of drawings and a great model of the fire of London. Robin's work shows he has used his inference skills in reading to understand what is going on in the picture and has built a fantastic model of the London Monument, including interesting facts. And look who has enjoyed the Robot Art task, writing lots of facts to accompany his design. Well done everyone!

Enjoy your Easter break, we will be in contact soon!

Stop Press!

More Home Learning from Year 2:
Fantastic focus in your daily
lessons and lots of Canonbury
creativity too –

Well done Team Y2!

Year 3 update

A

Well done year 3 for your fantastic efforts over the last 2 weeks! Lots of you are working very hard at home and enjoying the tasks you have been set.

Who is that enjoying the robot Art task in the comfort of his onesie? Look who is showing lots of great focus and enjoying 'The Enormous Crocodile', our year 3 text and working hard on the Robot art task. See our author holding up a great story based on the Enormous Crocodile, with a superb giraffe illustration (accurate speech punctuation too). Next we have our architect with a fantastic replica of a Mayan pyramid. And look who has joined in with her brother's year 4 science- making a musical instrument. And is that Bitesize English? Well done everyone!

Enjoy your Easter break, we will be in contact soon!

Year 4 update

Well done year 4 for your fantastic efforts over the last 2 weeks! Lots of you are working very hard at home and enjoying the tasks you have been set.

Look who is very proud of her maths work on column addition- excellent carrying skills and perfect layout! Followed by two students who have been working very hard, showing lots of focus. A drum roll for the instrument builder completing his Science lesson on Sound. See our future teacher who has made a poster that explains the tricky maths concept of times tables to her friends. Matilda has gone above and beyond- making a model of an aeroplane to accompany her writing for English. Look at the calm and focused student with her work-station well-organised for maths. Well done everyone!

Enjoy your Easter break, we will be in contact soon!

More Year 4

Stop Press!

More amazing Home Learning displayed with pride – and can you see two students who are in two places at once - their own homes and each other's?

Year 5 update

Wow, as expected, here are just a few examples of the brilliant learning taking place in Year 5.

The A4-filled page is from a reading task based on the exciting storybook: *The London Eye Mystery*, where pupils wrote a diary entry in role of one of the main characters Ted. This quantity of work shows a clear interest in the book which is great to see, well done!

We can see our Canonbury students maintaining great focus and taking pride in their work, just like at school. A parent is quoted saying, 'Thank you for providing all the work for the last couple of weeks. It has been invaluable'.

Look at the examples of the art task set in the first week: to create your own robot. There's lots of creativity shown here as well as an enjoyment for learning, which is of course really important too.

What a superb start to your home learning year 5.

Keep working hard, take care we will be in contact soon 😊

Year 6 update

It's great to see Year 6 enjoying and working hard to complete their home learning tasks! Here we have a fantastic example of an informative advertisement poster, persuading customers to purchase a wooden carving from one of the characters based on the story: 'Little Freak'. The labelled picture with the capitalisation to grab the attention of passers-by is a brilliant persuasive technique!

In the middle picture, we see that year 6 have been hard at work revising adding and subtracting with negative numbers, a very useful skill for when looking at the temperature. In this example we even see a self-drawn number line, a visual aid to help with calculating accurately, this is very proactive.

Our final picture demonstrates such focus and calm, 2 very important learning habits. Parents have said, 'They have been doing homework every morning and actually they love it.'

Well done guys -This is really impressive! Not only is learning is continuing at home in year 6, we can see that you are having some fun with it too, fantastic!

Take care we will be in contact soon 😊

Year 6 update

Stop Press!

The learning keeps on coming – More Reading, Writing an Maths, plus Ancient Greek Snakes and Ladders. And look who's promoted himself into Y6...
