

Art – SUMMER 1, WEEK 1

LO: To show pattern and texture by adding dots and lines

Have a look at these zentangle **patterns** made just with a black pen... Can you have a go at copying some of these **patterns**? Can you make up some of your own using different **shapes** and **lines**?

Watch his YouTube clip (if you can) for more help and ideas: <https://www.youtube.com/watch?v=Ppyjv2ppbcg>

Once you have had a try at some zentangle patterns, can you sketch your first initial (or even your whole name) in block letters and fill it in with different zentangle patterns? Or, try sketching out your initial, name or another word and use zentangle patterns for the background – your choice!
