

Art - SUMMER 1, WEEK 2

LO: To explore ideas and collect visual information

Have a look at this **colour wheel**...

Have a look carefully at **colours** that are close together and **colours** that are opposite each other.

Find the **primary colours** (red, blue and yellow). Now find the **secondary colours** (orange, green and purple). What do you notice about where each of these **colours** are placed on the **colour wheel**?

Go on a **colour wheel** object hunt at home and find things to match each **colour** on the **colour wheel**!

If you can, take a photo of what you have found ☺
