Summer Term - Week 10 (w/c 29th June)

Lesson 4 - Counting coins

Finding equal coins.

Success Criteria:

1. Watch the video and pause it to answer the questions.
2. Ask an adult at home to look at a collection of their coins.
3. Work with an adult at home and count some coins together.

= 40p

e.g.

4. Answer the questions on the worksheet.

Today's lesson is on counting coins.

Can you name these coins?

Can you count these coins?

Count some more coins. This time we are counting by pounds.

What is the same? What is different?

They both have 6 coins. They both have the number 6 when we add them up.

They have a different value. One of them we call 6p or 6 pence and the other has a symbol of a pound. The symbol before the number 6 is to show us 6 pounds.

Let us count these coins.

These coins are worth 2 pence.

= 10p

2 4 6 8 10

These coins are pounds, they are also worth 2 so we can count in twos.

= £10

2 4 6 8 10

What is the same? What is different?

These coins have different values.

Have a go

Count these coins. Use a number line to help.

Remember to count by fives.

Remember to count by tens.

How much money is there?

There is p

There is p

There is £ and p

Try and do all 5 questions

1 How much money is there?

a)

			
<input type="text"/> p	<input type="text"/> p	<input type="text"/> p	<input type="text"/> p

b)

			
<input type="text"/> p	<input type="text"/> p	<input type="text"/> p	<input type="text"/> p

c)

			
<input type="text"/> p	<input type="text"/> p	<input type="text"/> p	<input type="text"/> p

d)

			
<input type="text"/> p	<input type="text"/> p	<input type="text"/> p	<input type="text"/> p

2 How much money is there?

p

p

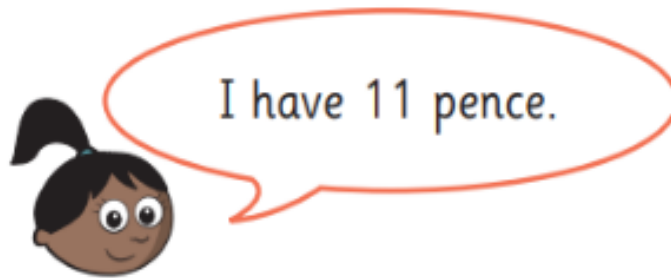

p

3 Write $<$, $>$ or $=$ to compare the amounts.

- 4 Sam has some 2p coins.

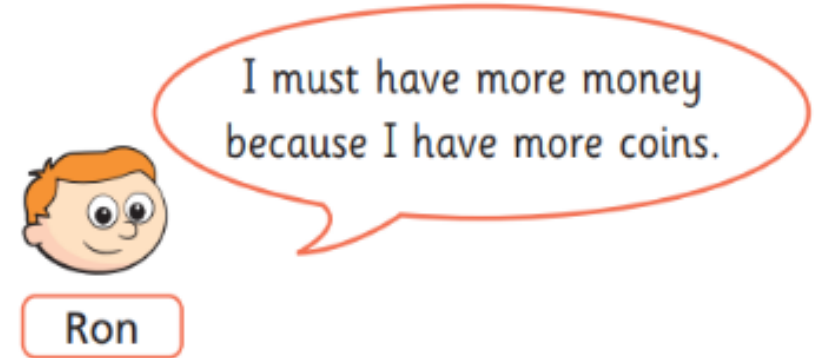

Do you agree with Sam? _____

Talk about your answer.

- 5 Ron has nine 2p coins.

Jo has three silver coins.

Do you agree with Ron? _____

Talk about your answer.
