Information texts lesson 3

Wednesday July 8th 2020

LO: To use questions marks

Read the text below with an adult. Now make up questions to go with the text.

For example [What colour is the female mallard duck?](#)

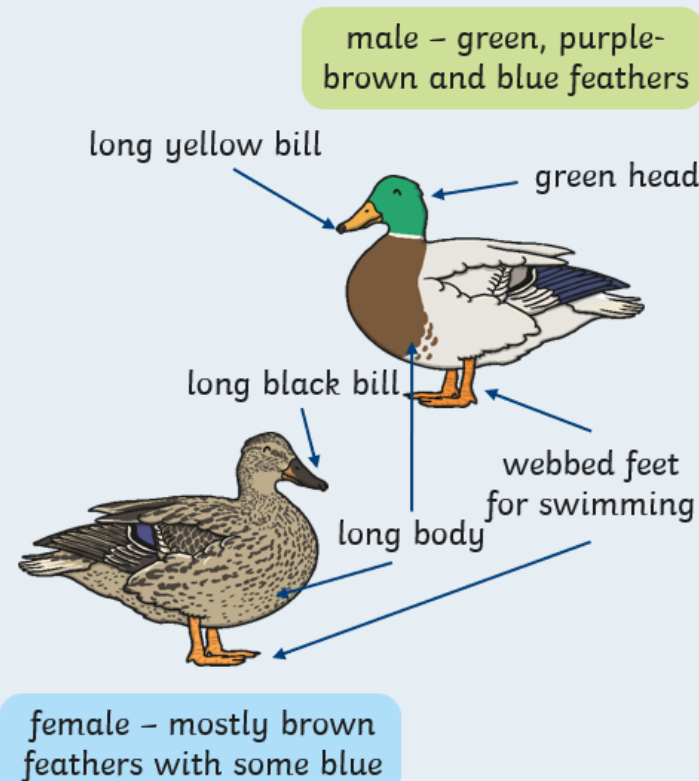

Mallard Duck

Mallards are large ducks that come out during the day.

They live near water, such as lakes and ponds.

They are **omnivores**. They eat underwater plants, seeds and acorns. They also eat small fish and insects.

Stepping Stones Activity

Read the text below. Can you think of three questions about mallard ducks?

Use these sentence starters.

What are....

When do they....

Where do they...

Mallards are large ducks that come out during the day.

They live near water, such as lakes and ponds.

They are **omnivores**. They eat underwater plants, seeds and acorns. They also eat small fish and insects.
