Remember, a food chain shows how each animal gets its food. Food chains are one of the ways that living things depend on each other to stay alive.

There are food chains in all kinds of habitats.

What Is a Food Chain?

A food chain shows how animals depend on other plants and animals for their food and survival.

What Is a Food Chain?

A food chain can tell you about what animals eat.

Summer 1 Week 5

Stepping Stone Activity

W/C 18th May 2020

LO: To use the idea of a simple food chain to identify and name different sources of food.

Success Criteria:

- | |
|--|
| 1. Re-read the new learning on the second page. |
| 2. Click the links about food chains on the first page and refresh your memory. |
| 3. Look at the pictures below. |
| 4. Draw the pictures in the correct order for the three food chains. Remember- you can research safely on kiddle.co. |
| Challenge: Draw and write about a habitat that you may find one of the food chains in. |

			
Rabbit	Fox	Grass	Sunlight

Summer 1 Week 5

W/C 18th May 2020

LO: To use the idea of a simple food chain to identify and name different sources of food.

Success Criteria:

- | |
|--|
| 5. Re-read the new learning on the second page. |
| 6. Click the links about food chains on the first page and refresh your memory. |
| 7. Look at the pictures below. |
| 8. Draw the pictures in the correct order for the three food chains. Remember- you can research safely on kiddle.co. |
| Challenge: Draw and write about a habitat that you may find one of the food chains in. |

			
Rabbit	Fox	Grass	Sunlight

				
Earthworm	Frog	Heron	Earth	Dead leaves

				
Caterpillar	Fox	Leaves	Sunlight	Bird
