Think about the scene when the boy says, "Next time then I'll go with you. I'm old enough now." Then

From this scene onwards where the brother has ventured outside alone, write a **detailed** description about the outside world **up until he discovers the children**. In your description include what he sees outside of the bunker.

**Post apocalypse:** This is the time after an event that caused mass destruction and has managed to wipe out a large part of the world's population. It is supposed to be hell on earth, where everything is poison and it will be hard to survive.
