

**Success Criteria:**

- |  |
|--|
| 1. <b>Revise and revisit the photosynthesis process.</b>                     |
| 2. <b>Recap names of a plant, check answers with Busythings.</b>             |
| 3. <b>Study the process of pollination and revise creating a storyboard.</b> |

**Task (with links):**

**Task 1**

What is photosynthesis?

Think back to year 4 and your study of plants and animals.

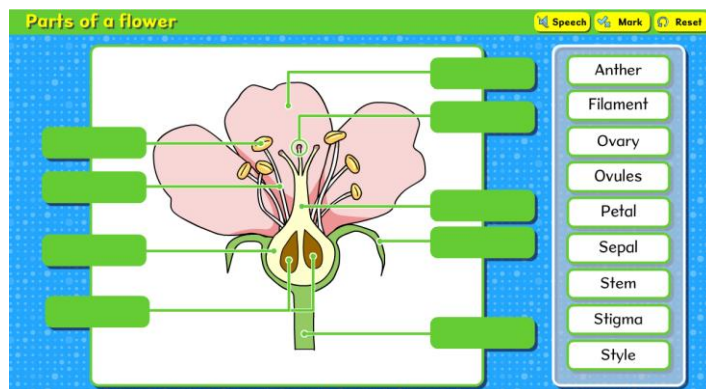

Watch the video link below and use your own know knowledge, to write an explanation.

<https://www.bbc.co.uk/programmes/p011t57f>

**Task 2**

Find a flower (either in your garden, local park or shop bought), dissect it and stick on a sheet of A4 paper using cellotape. Try to name and label all the different parts then test to see whether you got them right using the Busythings diagram quiz.

**Task 3**

Using the link below, create a comic strip to explain the process of pollination for flowering plants.
